

Product: Magnesium Sport

Description

Magnesium Sport comes in the form of Magnesium Malate, Magnesium with Malic Acid.

- To promote muscle metabolism and immune system
- Help in chronic pathologies such as Fibromyalgia
- Help in the recovery of muscular pains and chronic muscular fatigue

Function

- Eliminate harmful metals from the organism
- Stimulate cellular energy and improve digestion

In the neuromuscular system, magnesium participates in neurochemical transmission and excitability, controlling cardiac electrical activity, muscle contractility, nerve cell contractility, and nerve cell function. In bone metabolism, it is necessary for the maintenance of bone integrity, since it is metabolically related to calcium. It is a constituent of the mineral bone structure together with calcium and phosphate, and participates in the processes of mineral exchange between bone and tissue. In addition, it acts in the regulation of ossification and in the proper fixation of calcium, preventing its deposition in the form of calculi.

Magnesium Malate has in its formula molecules of malic acid that bind to one magnesium molecule to constitute a necessary source of magnesium, and also of malic acid, having a malic acid, having a higher bioavailability. In addition, it has a prolonged absorption besides not reacting with gastric acid because it is in the malate form, avoiding gastric discomfort, which does not occur with other forms of magnesium. In studies performed, it was observed that Magnesium Malate had the ability to reduce muscle pain, such as fibromyalgia. Malic acid is a compound that acts in the Krebs cycle, playing an important role in the production of energy in the body.

Product: Magnesium Sport

Directions / Precautions

Adults should take 1 capsule a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under 18, pregnant or lactating women, unless prescribed/recommended by doctor/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Packaging

- Pack size : 300cc
- Net weight : 102g
- Total weight : 316g
- Type : cápsulas
- Quantity : 120
- N.º embalagens p/caixa:
- IVA 23%
- Reference : ECO MAGNÉSIO SPORT
- Barcode : 5600283759296

Indications

Magnesium SPORT is a supplement designed to help reduce pain, functional disability, behavioral and cognitive changes, and is essential in conditions such as chronic fatigue syndrome and fibromyalgia. Studies have shown that it may have benefits as an adjunct in the prevention of osteoporosis and in maintaining heart health. It is relevant in top athletes, to aid in rapid recovery and aid in rapid recovery and post-workout pain relief.

Allergens

Contains no known allergens.
