

Product: Potassium 1000+

Description

POTASSIUM 100+ is an excellent supplement that will help to make up for the nutritional deficiency of potassium and thus regulate kidney, heart, muscle and skeletal function.

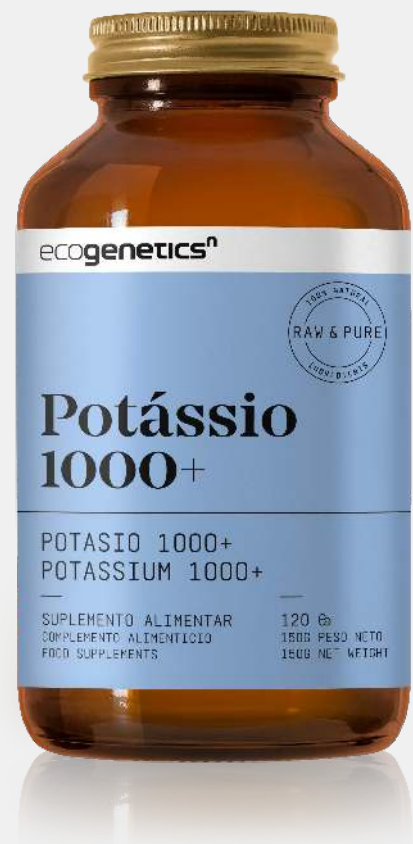

Function

Product: Potassium 1000+

Directions / Precautions

Adults should take 1 capsule a day or according to professional prescription. The recommended daily dose should not be exceeded. If you have any health problems, consult your physician first. Supplements should not replace a varied and balanced diet and a healthy lifestyle. Not recommended for persons under the age of 18 unless prescribed/recommended by a physician/pharmacist. Store in a cool, dry place. Keep out of reach of children.

Packaging

- Pack size : 300cc
- Net weight : 150g
- Total weight : 355g
- Type : cápsulas
- Quantity : 120
- N.º embalagens p/caixa:
- IVA 23%
- Reference : ECO POTASSIO
- Barcode : 5600283759302

Indications

Potassium 1000+ can be a nutritional supplement to cover the daily nutritional potassium requirements, providing it in its most bioavailable form (dipotassium phosphate). It is a supplement with high bioavailability in phosphorus. Potassium deficiency can lead to hypertension problems. Dialysis patients are severely deficient in potassium. Potassium is the best regulator of body fluids and plays a decisive role in preventing fluid retention edema (feeling of tired legs and visibly swollen legs and hands). An early manifestation of potassium deficiency is cramps.

Allergens

Contains no known allergens.

Ingredientes e Informação Nutricional/Ingredientes y Valor Nutricional/Ingredients and Nutritional Value por cada cápsula/each capsule:

	%VRN/NRV
Fosfato Dipotássico/Fosfato Dipotásico/ Dipotassium Phosphate (K ₂ HPO ₄)	1116MG
Formica Propionica/Provides:	
Potássio/Potassiin/Potassium	498.85MG 24.9%
Fosfato/Fosforin/Phosphorus	188.85MG 28.4%

**Dutros ingredientes/Otros ingredientes/
Other ingredients:**

Hidroxiopropilmetil Celulosa/Hydroxypropylmethyl Cellulose (cápsula/capsula/capsule), Estearato de Magnésio vegetal/Vegetable Magnesium Stearate (agente antiaglomerante/anti-caking agent).

PT Potássio contribui para o normal funcionamento do sistema nervoso, muscular e para a manutenção de uma pressão arterial normal.

ES El potasio contribuye al normal funcionamiento del sistema nervioso, los músculos y al mantenimiento de una presión arterial normal.

EN Potassium contributes to the normal functioning of the nervous system, muscle and the maintenance of a normal blood pressure.

Informação sobre constituintes

Potássio: é um dos electrólitos do corpo, os minerais que carregam uma carga eléctrica quando dissolvidos em líquidos corporais como sangue, estando quase todo o potássio do corpo localizado dentro das células. O potássio é necessário para o funcionamento normal das células, nervos e músculos.

Fósforo: O fósforo é um mineral essencial ao organismo e encontra-se em abundância nos tecidos humano que pode surgir de duas formas, fosfatos orgânicos e fosfatos inorgânicos, sendo que a maioria dos fosfatos são absorvidos no estado inorgânico. Contudo, tal como os fosfatos, o fósforo participa em várias funções essenciais, tais como, formação óssea juntamente com o cálcio, reacções químicas de libertação de energia, sistema tampão fosfato no líquido intracelular e túbulos renais e faz ainda parte dos ácidos nucleicos, ADN e ARN.
